

JOURNAL

OFFICE OF LEGISLATIVE COUNSEL

Thursday - 9 November 1967

25X1 1. [] CEA) Delivered to Paul Demos, Administrative
25X1 Assistant to Senator Joseph Montoya (D., N. Mex.), biographical data on
[] Senator
Montoya had requested the material as he plans to insert []
in the CONGRESSIONAL RECORD. I noted to Demos that although we had

25X1 [] Demos assured me they would not.

25X1 2. [] CEA) Spoke to Drury Blair, Senate Subcommittee on
Immigration and Naturalization, concerning the Rodino bill. Blair said that
Senator Eastland has been out of Washington all week and he had thus been unable
to speak to the Senator concerning the bill. There will be a Subcommittee
meeting on Tuesday, November 14, and Blair will endeavor to place the bill
on the agenda. He considers the bill noncontroversial and foresees no problems
other than possibly Senator Thurmond, who is new to the Committee and might
ask questions. Blair thought it might be wise for someone to speak to Senator
Thurmond. I indicated that we ourselves would not do this, but possibly a
representative from one of the Radios would.

25X1 3. [] JSW) Talked with Robert Michaels, House
Appropriations Committee staff, inquiring if he had a chance to work out
with the Chairman a date when the Agency would meet with the Agency Sub-
committee. Mr. Michaels said he had a brief conversation but nothing was
resolved and he would be talking with him later in the day but certainly it
would be no earlier than next week.

25X1 4. [] JSW) Representative Philip Philbin, prior to
today's briefing, specifically inquired what the Senate plans were in connection
with hearings and action on H.R. 13705. I indicated we had been pressing
them but had gotten no firm answer but I would look into it again and advise.
Mr. Philbin indicated he would like to know since if they are not planning
to act this year he would not wish to go forward at this time.

25X1 5. [] JSW) The Director, accompanied by Messrs.
25X1 [] Warner, met with the CIA Subcommittee of House Armed Services.
See Memorandum for the Record.
